Genrate Cover Letter

How the interface will look like

The User Flow

SignIn Into the extension

Permit to access the webpage's content

Choose the template that you want for resume and cover letter. User can change it.

User visits some website

AI Bot analyses the scraped data and the user's stored data to craft a resume

The AI provides with the template first in a text form to be filled in the resume template. The user can review it.

Use GitHub account and select the projects which show your expertise

In the backend the AI Bot analyses the repos for the languages documentation and some files.

The user can describe the projects if he wants to for better results

Analysed data is stored in a database.

Once the user has reviewed it then the bot will provide the resume.
